

HOSSAM N. ABOUD

Senior Flutter Developer | Mobile Engineer | Backend (Node.js) | CI/CD

+972 592 903 160 · hossam.vlogss@gmail.com · Palestine · Open to Remote (Available Worldwide) · [LinkedIn](#) · [Portfolio](#) · [GitHub](#)

KEY ACHIEVEMENTS

- Reduced app load time by 35%+ and crash rate by 20% through systematic performance profiling and optimization
- Deployed 15+ production apps on Google Play and App Store across healthcare, education, e-commerce, and fintech
- Delivered 50+ freelance projects with 5-star ratings from international clients
- Cut CI/CD release cycle time by 50% using Fastlane and GitHub Actions across multiple projects

PROFESSIONAL SUMMARY

Senior Flutter Developer with 4+ years of experience delivering high-performance cross-platform mobile applications across the full SDLC. Expert in Flutter, Dart, Firebase, REST APIs, Node.js, Clean Architecture (MVVM), BLoC/Cubit, and CI/CD pipelines. Proven track record of shipping scalable, user-centric solutions on schedule using Agile/Scrum methodologies, with deep experience in mobile architecture, Google Play Console, and App Store deployment.

CORE COMPETENCIES

Mobile: Flutter · Dart · Cross-platform Development · Google Play Console · App Store Deployment

Architecture: Clean Architecture · MVVM · BLoC / Cubit · Dependency Injection · State Management

Backend & APIs: Node.js · Express · REST APIs · Firebase · MySQL

DevOps & Process: CI/CD · Fastlane · GitHub Actions · Agile / Scrum · Unit Testing · Performance Optimization

PROFESSIONAL EXPERIENCE

Flutter Developer & Backend Engineer | [Medlet \(Remote\)](#)

2024 – Jan 2026

- Developed and maintained a scalable medical education app adopted by 3+ universities, supporting 1,000+ active users
- Reduced app load time by ~35% through performance profiling and code-level optimization
- Integrated REST APIs and Firebase services, improving data sync reliability across all modules
- Implemented CI/CD pipelines using Fastlane and GitHub Actions, cutting release cycle time by 50%
- Applied Clean Architecture (MVVM) and BLoC/Cubit, reducing bug resolution time and improving maintainability

Flutter Developer & Backend Engineer | [Mnjz \(Remote\)](#)

2021 – 2023

- Built and shipped cross-platform mobile apps using Flutter, serving thousands of end users
- Developed RESTful backend services with Node.js and Express, improving API response time by 30%
- Integrated Firebase (Firestore, Auth, Storage) and MySQL for scalable data management
- Collaborated in an Agile/Scrum team to deliver production-ready features on schedule
- Established CI/CD workflows automating testing and deployment across environments

Flutter Developer (Part-time) | [Tekno Class \(Remote\)](#)

2021 – 2023

- Developed mobile applications using Flutter following Agile/Scrum practices
- Integrated third-party APIs and Firebase services to enhance app functionality
- Contributed to UI/UX improvements that increased user engagement and session duration

Flutter Developer | [HEXA](#)

2020 – 2021

- Developed Android and iOS apps using Flutter ensuring consistent cross-platform performance
- Integrated REST APIs and Firebase to power real-time app features
- Refactored legacy codebases, reducing crash rate by 20% and improving overall stability

KEY PROJECTS

Medlet — Medical education platform for 3+ universities in Jordan — 1,000+ active users. Flutter, Firebase, REST APIs. [\[Google Play\]](#) [\[App Store\]](#)

OfflineSMS — Bulk SMS app for alerts, marketing, and customer communication — no internet needed on recipient's end. Supports KSA, UAE, Palestine, Israel, and Kuwait. Flutter. [\[Google Play\]](#)

Shams Medical Services — Healthcare super-app with doctor bookings, pharmacy delivery, lab test requests, and clinic selection. Flutter, Firebase. [\[View Project\]](#)

96gym — iOS fitness app with certified trainer programs, nutrition plans, and personalized coaching. Flutter, iOS. [\[App Store\]](#)

Switcher — P2P product exchange marketplace with in-app chat, ratings, and trust system. Flutter, Firebase. [\[Google Play\]](#)

World Plastics — QR-based loyalty and rewards app for field technicians — scan products, earn points, redeem for cash. Flutter, Firebase. [\[Google Play\]](#) [\[App Store\]](#)

TECHNICAL SKILLS

Languages & Frameworks: Flutter, Dart, Kotlin, Swift, JavaScript

Backend: Node.js, Express.js, REST APIs

Databases: Firebase (Firestore, Auth, Storage), MySQL, SQLite

Architecture & State: Clean Architecture, MVVM, BLoC, Cubit, Dependency Injection, State Management

Testing & Quality: Unit Testing, Integration Testing, Error Handling, Performance Profiling

DevOps & Tools: Git, GitHub, CI/CD, Fastlane, GitHub Actions, Google Play Console, App Store Deployment

Methodology: Agile, Scrum, SDLC, Cross-platform Development, Remote Collaboration

EDUCATION

Bachelor's Degree in Mobile Application Development (Android & iOS)

2018 – 2023

Islamic University of Gaza · GPA: 82% (3.3/4.0)

LANGUAGES

Arabic: Native · **English:** Professional Working Proficiency
